**PASSIVE PLUS, INC. ANNOUNCES  
AIR VARIABLE CAPACITORS LINE**  
[www.passiveplus.com](http://www.passiveplus.com)

**Huntington, New York – January 2019**

Passive Plus, Inc. (PPI) is now offering Air Variable Capacitors: HI-Q Air Plate, Air Tubular and Sapphire Trimmer Capacitors. With over hundreds of standard Trimmer Capacitors available, PPI will work with engineers who need a custom part built to their specifications. PPI is the only manufacturer to offer this service. All products are RoHS compliant. And available in Non-Magnetic Terminations. Delivery is stock to 6-weeks.

Always committed to producing the highest quality product on the market, PPI maintains a fully-equipped R&D and testing facility for the development of new products, ensuring the widest range of superior HI-Q Trimmer Capacitors in the world.

Passive Plus, with over 30 years in the RF/Microwave industry, manufactures high quality, high power passive capacitors using state-of-the-art manufacturing techniques. Specializing in Magnetic & Non-Magnetic HI-Q component product lines, PPI supplies reliable quality components to the Military, Medical, Semiconductor, Broadcast and Telecommunications Industries.

PPI is ISO9001:2015 certified.

Contact Passive Plus directly at (631) 425-0938 or [sales@passiveplus.com](mailto:sales@passiveplus.com) for quotes, pricing, orders, custom requests or specific engineering questions.
