**PASSIVE PLUS, INC. OFFERS HI-Q /LOW ESR CAPACITORS  
IN LARGER CASE SIZES**

**Huntington, New York – April 2018**

Passive Plus, Inc. (PPI) offers a line of Hi-Q Capacitors available in **5 larger case sizes**:

**2225 C/P series:**

Size: .220" x .250"  
Value Range: 0.5pF – 2700pF  
WVDC: 3600V  
TCC: C: 0 +/- 30 PPM/°C (NP0)  
P: +90 +/- 20 PPM/°C (P90)

**3838 C/P series:**

Size: .380" x .380"  
Value Range: 0.5pF – 5100pF  
WVDC: 7200V  
TCC: C: 0 +/- 30 PPM/°C (NP0)  
P: +90 +/- 20 PPM/°C (P90)

**1313 C series:**

Size: 1.30" x 1.30"  
Value Range: 200pF - .12µF  
WVDC: 10000V  
TCC: 0 +/- 30 PPM/°C (NP0)

**6040 C series:**

Size: .600" x .400"  
Value Range: 1pF - 6800pF  
WVDC: 8000V  
TCC: 0 +/- 30 PPM/°C (NP0)

**7676 C series:**

Size: .760" x .760"  
Value Range: 1pF - 20,000pF  
WVDC: 8000V  
TCC: 0 +/- 30 PPM/°C (NP0)

Specifically produced for high power / high frequency requirements, these products are available in surface mount or leaded configurations that are 100% RoHS compliant and are offered in magnetic and non-magnetic terminations.

**Available in 100% RoHS Tin or Tin/Lead terminations (90% Sn 10% Pb solder, SnPb 90/10)**

With over 30 years in the RF/Microwave industry, Passive Plus, Inc. manufactures high quality, high power passive components using state-of-the-art manufacturing techniques. Specializing in Magnetic & Non-Magnetic HI-Q Capacitors product lines, PPI supplies reliable quality components to the Military, Medical, Semiconductor, Broadcast and Telecommunications Industries.

Contact Passive Plus directly at (631) 425-0938 or [sales@passiveplus.com](mailto:sales@passiveplus.com) for quotes, pricing, orders, custom assembly requests or specific engineering questions.
